

Video Link -

1. Click on photos and 'recently added'
2. Find the photo you want... click it and it will drop into the workspace... easy!
3. Repeat to add more!

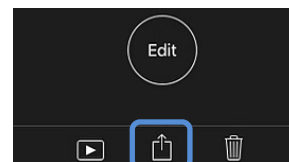

4. You can shorten or lengthen the photos 'time' by clicking on then then dragging the end (highlighted red) forward or backward...

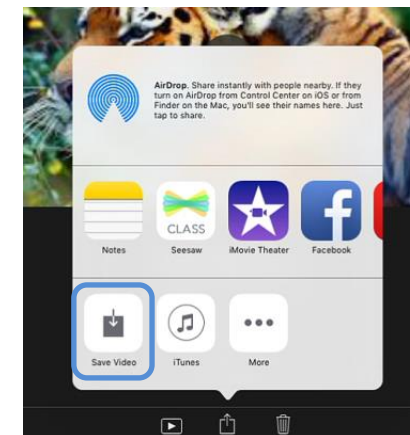

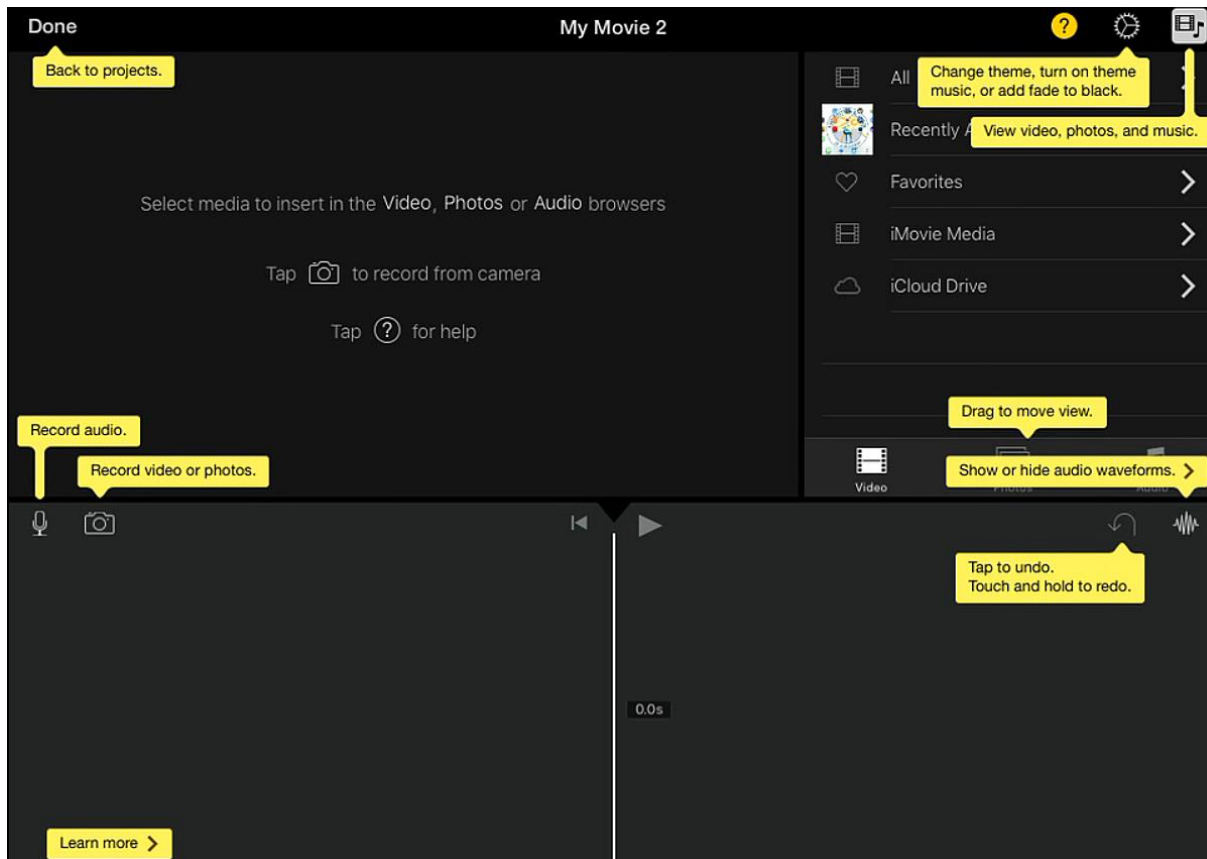

5. You can also change the transition style by clicking the tool here. (orange)

6. Once you're done editing, click 'done' at the top left of the screen and choose this symbol (blue) to then be able to save the video to the camera roll.

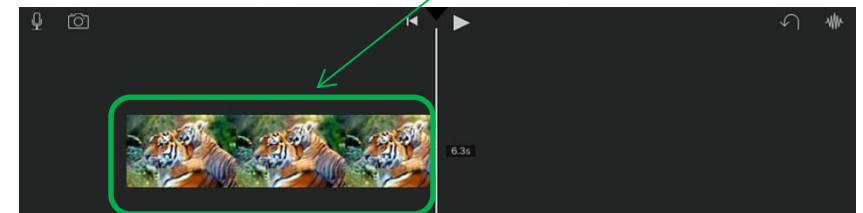

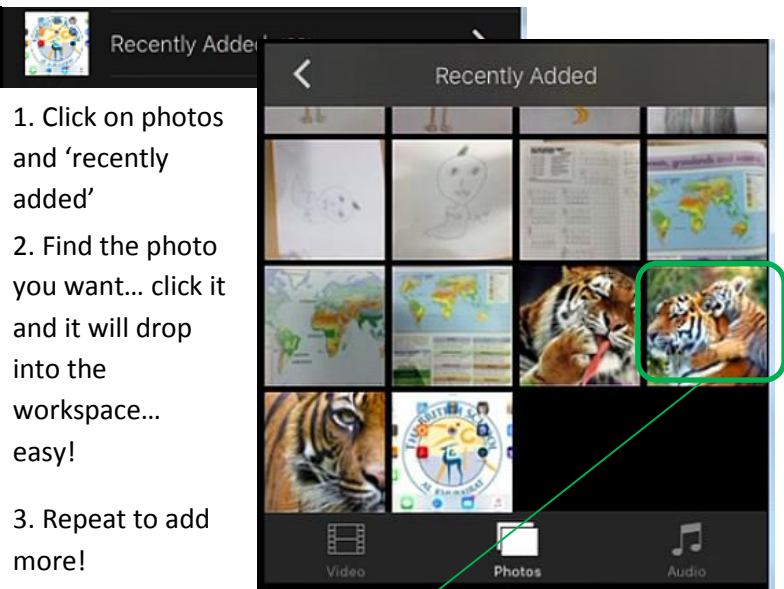

7. Select the 'save video' (blue) symbol and that will save your video to the iPad camera roll.
