

Create your own number and then keep adding (+) or subtracting (-) 1000, 100, 10 or 1. Keep a record of what you do and use inverse operation to double check your calculations. Choose HTU or ThHTU to start. **Rules - You cannot use an identical calculation twice in a row. You MUST mix between + and -.**

DICE GAME!

Add and Subtract 1, 10 and 1000

Pick a starting number (4-digit) and then roll a dice, whatever the dice shows is what you do to the number. Roll 10 times, recording what you got in the dice space below, then recording the number you end with. Double check (with a calculator?) to check you're right!

See a video of how to play by clicking the dice

STARTING NUMBER

JOTTING ZONE...

Record the dice roll here and work out what is happening...
